

## RFID Integration module Trend

Another contactless RFID product from SMART Technologies is the RFID mounting module trend.

**Available in following technologies: LEGIC advant, LEGIC prime, MIFARE DESFire, Hitag, EM**

The RFID module trend is suitable for mounting in a standard 55mm switchbox.

In combination with the marketable switch box programs such as Gira, the user provides a wide variety of color and design variants.

### Technical specifications:

- Dimensions: 69 x 69 mm
- Supported transponder types
- on 125 kHz : EM4x02 or Hitag
- on 13,56 MHz : Mifare or Legic
- Integrated antenna
- Interface versions: Wiegand, Clock/Data and TTL or specific on customer request (RS485 or RS232 on request)
- Read range / values depending on transponder types, power supply and ambient environment)
- on 125 kHz : up to 100 mm
- on 13,56 MHz : up to 80 mm
- Power supply: 9 to 24 V DC ( ±5% )
- Temperature range : -20°C to +60°C
- Indications: tricolour LED + beeper
- Simple installation into a 55mm switchbox
- Fully potted housing allows easy installation both in - as outdoor
